FOR IMMEDIATE RELEASE

DDS Rescue® Issues Statement on Ransomware Attack

Encourages Open Dialogue with Customers

CARLSBAD, CA—On Monday, August 26, 2019, a Ransomware attack was pushed out to more than 400 dental offices throughout the United States. This Ransomware attack was associated with the companies PercSoft, The Digital Dental Record and DDS Safe.

DDS Rescue® is issuing this statement to confirm that their company is not associated with any of these companies and has not been attacked by Ransomware.

DDS Rescue customers are protected and all data is secure. As cybersecurity professionals, DDS Rescue does everything it can to maintain customers' data protection on a daily basis.

Since this most recent attack occurred, DDS Rescue has been in touch with many dental offices, and they are encouraging customers to continue to ask them questions about the nature of Ransomware attacks and cybersecurity. DDS Rescue has a number of procedures in place that prevent the type of Ransomware attacks that have happened in recent months.

For further information visit www.ddsrescue.com, email sales@ddsrescue.com or phone DDS Rescue at (800) 998-9048.

DDS Rescue is a dental-only cybersecurity company that is owned and operated by dental professionals. The company's focus is on cybersecurity, backup/recovery, HIPAA compliance and consulting.
